

The main objective of this course is to reclaim the role of Total Laryngectomy as a valid treatment option for locally advanced laryngeal cancer. The indications of Total Laryngectomy will be widely discussed, as well as other surgical and non surgical treatment options that should be considered. The practical aspect of the course will take place on fresh cadaver in the modern facilities of Universidad Europea de Madrid for training in transoral ultrasonic endoscopic surgery (TOUSS). The hands on dissection program includes general aspects for transoral endoscopic ultrasonic surgery: Partial and Total Laryngectomy, Partial Pharyngectomy, Transoral Pharyngeal Suture, and Transoral Pharyngeal Reconstruction with regional flaps. Finally secondary puncture and voice prosthesis placement for vocal rehabilitation purposes after a Total Laryngectomy will be explained.

International Faculty

Prof. Marco Benazzo. San Mateo Hospital. Pavia. Italy

Prof. Giorgio Peretti. San Martino Hospital . Genova. Italy.

Prof. Giuseppe Spriano. Istituto Tumori Regina Elena. Roma. Italy

National Faculty

Dr. Francesc Avilés.

PROGRAM

WEDNESDAY, NOVEMBER 9th

First session	ORGAN PRESERVATION AND VOICE REHABILITATION
15:15-15:30	Presentation. Locally advanced laryngeal cancer. <i>M FERNANDEZ</i>
15:30-15:55	Non surgical techniques for organ preservation. From clinical trials to daily practice. <i>B SCOLA</i>
15:55-16:10	Precision of pretreatment staging. Impact of the Oncologic Multidisciplinary board in decisión-making. <i>L MONTES-JOVELLAR</i>
16:10-16:35	Clinical trials for locally advanced head and neck cancer. <i>P L-CRIADO</i>
16:35-17:00	Criteria for dose de-escalation of adjuvant radiotherapy <i>J VELASCO</i>
17:00-17:25	Salvage surgery after chemoradiation. <i>E RABOSO,</i>
17:25-17:55	Break
17:55-18:20	Partial laryngectomies in salvage surgery. <i>G SPRIANO</i>
18:20-18:45	Indications and complications of voice prosthesis. <i>M TOBED</i>
18:45-19:05	Office-based secondary puncture. <i>M TOBED</i>
19:05-20:30	ROUND TABLE: Organ preservation protocols vs Total Laryngectomy <i>E RABOSO, G SPRIANO, M BENAZZO, B SCOLA, M TOBED, M MAÑOS, J VELASCO . Moderator M QUER</i>
21:00	Course dinner

THURSDAY, NOVEMBER 10th

Second session	LOCALLY ADVANCED SUPRAGLOTIC CARCINOMA (LASC)
9:00-9:25	Open Supraglottic Laryngectomy (and Extended techniques). <i>R BARBERÁ</i>
9:25-9:50	Transoral laser surgery for LASC. <i>M BENAZZO</i>
9:50-10:15	Transoral Endoscopic Ultrasonic Surgery (TOUSS) for LASC. <i>M FERNANDEZ</i>
10:15-10:40	Oncological and functional results. Open vs Transoral Supraglottic Laryngectomy and Extended Laryngectomy. <i>R GUTIERREZ</i>
10:40-11:05	TORS for LASC. <i>J GRANELL</i>
11:05-11:30	Neck management. <i>M QUER</i>
11:30-12:00	Break
12:00-13:30	ROUND TABLE: Consensus for surgical treatment of LASC. <i>M BENAZZO, M QUER, J GRANELL, G SPRIANO, G PERETTI, R GUTIERREZ, I VILASECA</i> Moderator M FERNANDEZ
13:30-13:55	Surgical technique for transoral laser surgery of LAGC. <i>I VILASECA</i>
13:55-15:45	Lunch break

Third Session

15:45-16:10	LOCALLY ADVANCED GLOTTIC CARCINOMA (LAGC)
16:10-16:35	Indications, and limits for transoral laser surgery. <i>G PERETTI</i>
<i>BENAZZO</i>	Surgical technique for supracricoid and supratracheal laryngectomy. <i>M</i>
16:35-17:00	Indications, limits and patient selection for supracricoid and supratracheal laryngectomy. <i>G SPRIANO</i>
17:00-17:25	Present indications for total laryngectomy and its variations. <i>P PARENTE</i>
17:25-17:50	Transoral Ultrasonic Total Laryngectomy (TOUSS-TL). <i>M FERNANDEZ</i>
17:50-18:10	Surgical margin. Molecular Aspects <i>FX AVILÉS</i>
18:10-18:40	Break
18:40-19:00	Complications after salvage surgery <i>M MAÑOS</i>
19:00-20:30	ROUND TABLE: Consensus for surgical treatment of LAGC. <i>G SPRIANO, G PERETTI, FX AVILÉS, P PARENTE, R GUTIERREZ, M FERNANDEZ, M BENAZZO.</i>
Moderator B SCOLA	
20:30	Closing remarks. <i>B SCOLA, M FERNANDEZ</i>

FRIDAY, NOVEMBER 11th

Anatomy dissection lab

The practice will be a twosome on fresh cadaver, with instrumentation for TOUSS surgery: FullHD endoscopic equipment, FK retractor, Endoeye videoendoscope, Thunderbeat and laparoscopic instruments.

Transportation **Madrid – Universidad Europea – Madrid** departs from Plaza de Santa Ana

PRACTICE 1.	FK retractor, TOUSS set up, TOUSS Epiglottectomy, Base of tongue resection with TOUSS . TOUSS Total Laryngectomy.
08:00- 9:00	Presentation and Practice 1 sequence. Tips and tricks . <i>M FERNANDEZ</i>
09:00-14:00	<u>Group 1</u> Dissection lab. <u>Group 2</u> Video/ Laparoscopic suture training
14:00-15:00	Lunch break
15:00-20:00	<u>Group 1</u> Dissection lab. <u>Group 2</u> Video/ Laparoscopic suture training

SATURDAY, NOVEMBER 12th

PRACTICE 2.	Transoral pharyngeal suture. Voice prosthesis placement (Secondary puncture), Supraclavicular and Deltopectoral flap, Transoral suture of reconstruction flaps
08:00- 9:00	Presentation and Practice 1 sequence. Tips and tricks . <i>M FERNANDEZ. L montes jovellar</i>
09:00-14:00	<u>Group 2</u> Dissection lab. <u>Group 1</u> Video/ Laparoscopic suture training.
14:00-15:00	Lunch break
•15:00-20:00	<u>Group 2</u> Dissection lab. <u>Group 1</u> Video/ Laparoscopic suture training
