## **1<sup>ST</sup> HEAD AND NECK SURGERY COURSE, TOTALLY IN 3D**

---

**FPO IRCCS  
Candiolo Cancer Institute (TO)  
February 12-14, 2018**

---

**VI Italian-Brazilian Congress  
of Head and Neck Surgery**

---

**Pre course on site visit: February 7-8**  
***Chris Holsinger***  
**How to implement a robotic program  
in Head and Neck surgery**

## Dear Colleagues,

It is with great pleasure that I would like to introduce you to this First Head and Neck Surgery Course, presented entirely in 3D. This powerful technological development in our field, as well as in other fields of surgery, is undoubtedly influencing not so much the surgical procedure itself but the way we perform as surgeons today.

Greater attention to detail, minimal invasiveness, full sharing of all phases of the operation, video tutoring of colleagues in training: these and other aspects represent the everyday reality in many operating rooms. Moreover, what happens in the operating field can now be filmed and reviewed in 4K and 3D technology, i.e. maximum video fidelity coupled with a depth of field that in the past only the first surgeon could have.

*"Better than Live"* is a slogan but it also presents a real challenge: its aims are not just filming and showing surgery better than ever before, but also demonstrating how the execution of an operation under the control of 3D monitors can produce a decisive increase in minimally invasive procedures in a short time.

This will also be the occasion to introduce you to my new professional home, the FPO IRCCS in Candiolo, a Cancer Research Institute whose distinctive characteristics are, among others, the application of leading edge technology, a patient-centered approach, and attention to quality of life.

The First Course will deliberately cover all the surgical fields in our extensive discipline. It will be followed by other, more specific courses, focused on individual anatomical areas and their specific procedures. The formula is simple: two simultaneous live surgery sessions from the operating rooms and video-sessions with recorded contributions. The Italian Faculty is composed of greatly experienced surgeons who are greatly experienced at a very detailed level.

Last but not least, we have decided to join the VI Italian-Brazilian Congress of Head and Neck Surgery and we have invited some internationally acclaimed colleagues to present 3D video sessions on some of the hot surgical topics. A warm welcome to them from our scientific community! I hope to see you in Turin next February.

**Giovanni Succo**

# Program

## ► MONDAY, FEBRUARY 12<sup>TH</sup>

08.00 – 09.00  
09.00

Registration  
Course introduction

---

09.15  
09.45  
10.15  
10.45  
11.15  
11.45  
12.15  
12.45

### Video sessions in 3D

Chairmen: T. Pazzoia, L. Tubino, R. Puxeddu  
Tonsillectomy  
Thyroidectomy  
Tracheoesophageal puncture  
Oral cavity cancer resection  
Septorhinoplasty  
Tracheal resection  
Neck dissection  
Lunch

---

14.00

### International Forum

Welcome Address: A. Agnelli  
President of FPO IRCCS

Chairman: R. Albera

14.30 – 15.15

Opening Lecture  
Presenter: L. Licitra  
The role of video technology in teaching and performing head and neck surgery  
**J.P. Shah**

15.15 – 15.45

Presenter: E. Cassandro  
A video review in 3D of critical maneuvers in thyroid surgery  
**C.R. Cernea**

15.45 – 16.15

Presenter: M. Piemonte  
A video review in 3D of critical maneuvers in vertical partial laryngectomies  
**R. Dedivitis**

16.15 – 16.45

Presenter: C. Vicini  
A video review in 3D of critical maneuvers in OPHL  
**F. L. Dias**

16.45 – 17.15

Presenter: G. Danesi  
A video review in 3D of critical maneuvers in neck dissection  
**F. Walder**

17.15 – 18.15

Presenter: M. Bussi  
A video review in 3D of critical maneuvers in parotidectomy  
**J. Pinho**

18.15 – 18.45

Presenter: G. Paludetti  
A video review in 3D of critical maneuvers in total laryngectomy  
**W. Golusinski**

---

### Final remarks

**P. Nicolai – F. Chiesa**

## ► **TUESDAY, FEBRUARY 13<sup>TH</sup>**

09.00- 14.00

### **Live Surgery**

#### **OR n°1**

Chairmen: R. Sorrentino, C. Piazza

OPHL: op. G. Rizzotto

Parotidectomy: op. P. Nicolai

Hypophysectomy: op. G. Pecorari, F. Zenga

#### **OR n°2**

Chairmen: R. Pareschi, M. Bignami

Septorhinoplasty: op. M. Bussi

FESS: op. P. Castelnuovo

Endoscopic ear surgery: op. L. Presutti

3D microscopic stapes surgery: op. R. Albera

14.00

Lunch

15.00 – 15.30

Presenter: M. De Vincentiis

A video review in 3D of critical maneuvers in total laryngectomy approached by TOUSS

**M. Fernandez - Fernandez**

---

### **Video sessions in 3D**

15.30

Chairmen: C. A. Leone, D. Cuda, M. Lucioni

TORS

16.00

Parotidectomy

16.30

TLM in 3D

17.00

FESS in 3D

17.30

Cochlear implant

---

### **Final remarks**

**G. Cantù**

## ► **WEDNESDAY, FEBRUARY 14<sup>TH</sup>**

09.00 – 14.00

### **Live Surgery**

#### **OR n°1**

Chairmen: P. Ruscito, M. Radici

CO2 Fiberlaser OPHL: op. G. Succo

TLM in 3D: op. G. Peretti

Thyroidectomy: op. N. Palestini

#### **OR n°2**

Chairmen: V. Ferrero, F. Raso

Neck dissection: op. G. Spriano

3D microscopic ear surgery: op. G. Danesi

Submaxillary gland resection: op. M. Benazzo

14.00

Lunch

15.00 -15.30

Presenter: A. Camaioni

A video review in 3D of critical maneuvers in tongue resection and reconstruction

#### **L. P. Kowalski**

### **Video sessions in 3D**

Chairmen: L. Pignataro, A. Serra, G. Motta Jr.

15.30

OPHL

16.00

Reconstructive surgery

17.00

Oral cavity/Oropharynx resection

17.30

Septorhinoplasty

18.00

Middle ear anatomy in 3D

### **Final remarks**

**F. Pia**

# Info

## ► GENERAL INFO

The course is restricted to 150 delegates

---

## ► COURSE DIRECTOR

Giovanni Succo  
Head and Neck Oncology Service  
FPO IRCCS  
Candiolo Cancer Institute

---

## ► SCIENTIFIC SECRETARY

Erika Crosetti  
Head and Neck Oncology Service  
FPO IRCCS  
Candiolo Cancer Institute

---

## ► ORGANIZING SECRETARIAT

Stilema Srl  
Via Cavour 19  
10123 Torino (Italy)  
email: [organizzazione@stilema-to.it](mailto:organizzazione@stilema-to.it)

---

## ► REGISTRATION

Registration for the Congress can be made from by using the online registration service at the following address: [www.stilema-ecm.it](http://www.stilema-ecm.it)

The registration fees are the following (VAT included):

Residents € 250,00  
ENT Surgeons € 300,00

---

## ► CME

The ministerial procedure has been activated for the accreditation of the Course, as indicated by the Italian Commission for Continuing Medical Education (ECM).

---

## ► COURSE VENUE

FPO IRCCS  
Istituto Oncologico di Candiolo  
Strada Provinciale 142 km 3,95 -  
Candiolo, Torino (Italy)

---

## ► HOW TO REACH CANDIOLO

For those driving from A4 Torino – Triste follow for Tangenziale Sud exit Pinerolo.

Take Candiolo, turn left and continue to Candiolo and then follow the signpost for IRCC.

For those driving from A21 Torino – Piacenza take exit Pinerolo. Take Candiolo, turn left and continue to Candiolo and then follow the signpost for IRCC.

If you have a navigator enter as your destination: Candiolo (TO), Strada Provinciale 142 crossroads Strada Statale 23.
